FOREWORD

1. The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)-Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sh. Sunil Kumar Baranwal, Director of Census Operation, Jharkhand. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and since then these are printed after every Census because of their wide ranging utility. Census after Census much innovations/modifications have taken place in the District Census Handbooks in terms of coverage and contents of population data. This is the very useful and valuable district level publication brought out by the Census Organisation on behalf of the State Government. It, inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era for planning development.

The present volume of the District Census Handbook Part –A (village and town directories amenities) and Part-B (Primary Census Abstract) of 2011 Census has been made more informative and exhaustive in terms of coverage and content. The content of Village Directory has been broadened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafe/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA/SAHIYA in Jharkhand, Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census. The various basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements.

It is worthwhile to mention that the District Census Handbooks of the Census of India, 2011 are being made available in electronic format also in addition to printed volumes keeping in view the demand of data users.

The District Census Handbooks are brought out in two parts, viz. (i) part A containing the village and town directories and (ii) part B – village and town-wise primary Census Abstracts pertaining to general population. It also contains the District Primary Census Abstracts for Scheduled Castes and the Scheduled Tribes Population.

The village and town level amenity data have been collected through the Block Development Officers and the Vice Chairmen/Executive Officers of the Municipalities and Notified Area Committees who functioned as Charge Officer under the District/Sub-divisional level Officers.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village Directory, Town Directory and Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes which have taken place in the districts during the decade. District and C.D. Block Maps containing useful information on many items have also been included in this volume.

This publication is a joint venture of the State Government and the Census organisation. We are grateful to the State Government agencies for their co-operation in collection of such a huge volume of data. We would like to make a special mention of the warm and whole hearted co-operation which was throughout extended by the Deputy Commissioner, the Sub-divisional Officers, the District Census Officers and the Block Development Officers.

In this office Shri Subhash Chandra Tripathi, Joint Director, Shri Priyatosh Amist, Deputy Director, Shri Dinesh Kumar, Deputy Director, Dr. Satyendra Kumar Gupta, Assistant Director, Dr. Bhim Raj Hansdah, Assistant Director and Shri Sant Ram, Assistant Director supervised the project at different stages. In this voluminous job valuable assistance was rendered by Shri Pradeep Kumar, Ram Bhaskar Dwivedi, Manoj Kumar and Birendra Prasad Singh, Statistical Investigators Grade-II, who were responsible for supervision from beginning to end under guidance of Shri Sant Ram, Assistant Director. Dr. Bhim Raj Hansdah, Assistant Director has also been associated to monitor the digitization, scrutiny and validity work of Village Directory and Town Directory data. Shri Pradeep Kumar, Ram Bhaskar Dwivedi, Manoj Kumar and Birendra Prasad Singh, Statistical Investigators Grade-II, prepared the analytical notes on inset tables based on the data of Village Directory, Town Directory and Primary Census Abstracts under the guidance of Shri Priyatosh Amist, Deputy Director, Dr. Satyendra Kumar Gupta, Assistant Director, Dr. Bhim Raj Hansdah, Assistant Director and Shri Sant Ram, Assistant Director as teams were formed for validity and final preparation of District Census Hand Book of Census of India 2011 and over all monitoring work was under the guidance of Shri Priyatosh Amist, Deputy Director under the supervision of Dr. Prathiba Kumari, Assistant Registrar General (SS), India. Districts and C.D. Blocks Maps were prepared in Map Section under the supervision of Sri Mukut Guria Research officer (Map) with help of Sri Jitendra Saini, Geographer and Sri Indra Kant Mishra Sr. Drawing Assistant. Sri Niraj Kumar Sahu and Sri Tanwir Anjum, Compilers typed the manuscript and prepared the tables.

Printing In-charge of RGI and DCO helped in getting the volume printed in-house.

This Directorate is highly indebted to Sri C. Chandramouli, Registrar General and Census Commissioner, India under whose guidance it has been rare privilege to strive for results. We are equally indebted to Dr. Prathiba Kumari, Assistant Registrar General (SS) for spontaneous help and encouragement at different stages of the work of this project with guidance. We are also thankful to Sri M.S. Thapa, Additional. Director, Sri A.K. Arora, Joint Director and Sri Ramesh Kumar, Deputy Director of EDP Division, who scrutinized the manuscript and database of PCA data as well as village and town directory and guided for release of DCHB Part-A & B in electronic form.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its

coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the district

With the creation of Purbi Singhbhum district on 12th January, 1990, Singhbhum district with the remaining jurisdictions was named as Pashchimi Singhbhum. It has a rich heritage and close linkage with the district of Singhbhum. Pashchimi Singhbhum district is again divided and created a new district Seraikela-Kharsawan on 30th April 2001. It consists of 18 Community Development Blocks, viz. Bandgaon, Chakradharpur, Sonua, Goilker, Manoharpur, Anandpur, Gudri, Noamundi, Jaganathpur, Majhagaon, Kumardungi, Manjhari, Tantnagar, Jhinkpani, Tonto, Hat Gamharia, Khuntpani and Chaibasa.

The district is bounded on the north by the Seraikela-Kharsawan and Khunti, on the south by the State of Orissa, and on the west by the districts of Khunti, Simdega and the State of Orissa and on east by the Seraikela-Kharsawan and the State of Orissa.

Early History

The early history of the district is rather obscure although relics have been found in the old district of Singhbhum dating back to the Stone Age. The territory covered by the district does not find any mention either in the Vedic texts or in puranic literature. The earliest conjecture is in regard to the Gupta emperor Samundragupta of Magadh. According to an inscription, his dominion included all the Jungle countries from Baghelkhand to the Orissa coast including the district of Singhbhum. According to a theory, when the northern and Southern Bihar were annexed to the empire of the great Kushans, Orissa and the eastern sea board were also conquered, implying that the district may also have lain in the conquered territory.

In the seventh century A.D. Sasanka (of unknown lineage) is believed to have ruled over this territory. Two copper plate records of Sasank's reign indicate that the forest area also was under his authority.

Ruins of temples of the ninth and tenth centuries A.D. have been found at Benisagar, situated on the Singhbhum – Orissa. Shrines with eight Shiva Linga's known as "Astha Shambh us" probably existed here. Images of Siting and standing Ganesh have also been found, as also a Ganga and Yamuna as parshwadevis (side deities). According to a hypothesis, the temples at Benisagar belong to two district epoch: The first between the eighth and ninth century A.D. when the palas under Dharmपाल and Devपाल established the Pala Empire, and the second from the tenth to eleventh century A.D. when the second pala empire was established by Mahipal.

The early history of Singhbhum was influenced by the Hos who migrated from the Chotanagpur plateau and overcame the Bhuiyas who then held part of Singhbhum. The Hos successfully maintained their independence in the south of the district. The north of the district came under the rule of the Singh family of porahat who claimed to be Rathor Rajputs and whose head was formerly known as the Raja of Singhbhum. It is said that their ancestors were three brothers in the bodyguard of Akbar's general, Man Singh, who supported the Bhuiyas against Hos. At one time the Singh Rajas also ruled over the country included in the states of Seraikela and Kharsawan and claimed suzerainty over the Kolhan, a claim which the Hos deny.

The Hos maintained their exclusiveness and successfully repelled two attacks from the Raja of Chotanagpur and another invasion from the Mayurbhanj side headed by the chief called the Mahapatra of Bamanghati. The Hos were, however, frequently utilized by the chiefs of the area to make raids on their enemies. During Mohammedan period the Hos were left alone more or less by the Mohammedans although nominally they had the whole of the Jharkhand country stretching from Rohtasgarh to the frontiers of Orissa.

British period

British relations with Singhbhum date back to 1767 when a small British force marched against the Raja of Dhalbhum or as he is called in the early records of Midnapur, the Raja of Ghatsila. The district of Midnapur which included Dhalbhum, had been ceded to the East India Company in 1760. In 1765 a force was sent against the neighbouring Zamindars, but it could not subdue the Raja of Dhalbhum. After this expedition another force was sent under John Ferguson in 1767. He commenced his march from Jambuni to Ghatsila. The enemy had, however, retreated and the fort of Narsinghgarh had been destroyed by them earlier. However, the Raja was captured and sent to Midnapur in confinement. His nephew Jagannath Dhal was installed on the throne on the promise to pay an annual revenue of Rs. 5,500 to the British.

Jagannath Dhal could not have an easy time. He fell into arrears of yearly revenue of Rs. 5500 and there was an expedition against him. Jagannath Dhal attacked his successor, Baikunth Dhal with a large force. Eventually in 1777 Jagannath Dhal was reinstated in the estate on payment of a revenue of Rs. 2000 for the first year, Rs. 3000 for the second year and Rs. 4000 for the 3rd year and in 1800 the estate was permanently settled at an assessment of Rs. 4267.

These expedition against Dhalbhum brought the British into contact with the Raja of Porahat or as he was then called the Raja of Singhbhum. The Raja wanted the company's help to put his territory in order and agreed to pay them

annual revenue. A few years later in 1773, it was found that the Raja of Porahat was encouraging the transport of salt through Singhbhum which meant loss of revenue to the East India Company. Singhbhum was not directly under the company's administrative control at that time. The Raja was forced to execute an undertaking not to harbour either raiyats or merchants in future, and guaranteed the peace of Haldipokhar. Subsequently in 1793 the two neighbouring chiefs, the Thakurs of Kharsawan and Kunwar of Seraikela were compelled to give similar undertakings regarding the reception of fugitive rebels from the British territories.

In 1818 Raja Ghanshyam Singh Deo of Porahat tendered allegiance to the British. His main object was to be recognized as the Lord Paramount over the chiefs of Kharsawan and Seraikela and also to obtain assistance in reducing the Hos, whom he claimed as his subjects. The Hos resisted stiffly but their bows and arrows were of no match to the British equipment of war. In 1831 the Hos joined the rebellion (commonly called the Kol rebellion) of the Mundas of Chotanagpur. The insurgents went on burning villages, killing the people mercilessly and plundering property until the army was deployed to put down the rebellion. The rebellion was finally quelled after much bloodshed.

The immediate result of these troubles and the Kol insurrections in Ranchi and other parts of Singhbhum was the establishment of the South West Frontier Agency by Regulation XIII of 1833. After the conquest of the Kolhan in 1837 it was considered advisable to bring all the Ho pirs under the direct management of the British Government. A new district was consequently constituted to be known as Singhbhum with Chaibasa as its headquarters. In 1846 the district was enlarged by the transfer of Dhalbhum from Manbhum. When Act X of 1854 was passed, Singhbhum became a non-regulation district under the jurisdiction of the Lt. Governor of Bengal.

The most important of the chiefs, however, was the Raja of Porahat or Singhbhum. The estates of Kerahat, Seraikela and Kharsawan and the tenures of Anandpur, Kera, Bangaon and Chainpur had devolved for the parent estate of Porahat.

The Indian forces stationed at Hazaribag had rebelled, soon to be followed by a detachment of the Ramgarh Batallian sent from Ranchi to quell the rising at Hazaribag. The detachment of the Ramgarh Battalion stationed at Chaibasa was also inflamed. The principal Assistant Commissioner fled and sought the protection of Chakradhari Singh, the Raja of Seraikela. The insurgent forces raided the treasury and broke open the jail. Then they sought to proceed the Doranda but were prevented by the flooded river Sajai. They were given refuge by Arjun Singh, Raja of Porahat, who was proclaimed a rebel by the British administration. On September 16, 1857 the new principal Assistant Commissioner, Lt. Girch reached Chaibasa with the Rajas of Seraikela and Kharsawan and Kol forces. Ultimately Arjun Singh and his followers surrendered in February, 1859.

An era of peace and progress followed to be broken almost forty years later by the Birsaites rising, the effects of which, however, were not very widespread or great. The history of district in the present century is the Saga of a powerful industrial revolution coming in the wake of the exploitation of the districts's vast mineral resources.

Administrative set-up

The district of Pashchimi Singhbhum possesses 2 subdivisions, viz., 1. Chaibasa Sadar and 2. Chakradharpur spread over 18 C.D. Blocks and 2 statutory towns and 9 census towns. The district is in Santhal Pargana division which is in turn, under Jharkhand state (which has five divisions, e.g. North Chotanagpur, South Chotanagpur, Santhal Pargana, Palamu and Kolhan and was came out from erstwhile Bihar state on 15th November, 2000).

The administrative units of the district are as below:

Name of Sub-Division	Name of C.D. Blocks	Name of Town with Civic status
1. Chaibasa Sadar	1) Noamundi	1) Chaibasa (M. C.)
	2) Tonto	2) Gua(CT)
	3) Hat Gamharia	3) Bara Jamda(CT)
	4) Chaibasa	4) Noamundi (CT)

There is total no. of 1673 villages in the district.

The district administration is headed by the Deputy Commissioner. He belongs to I.A.S. cadre. He is assisted by a lot of officers mostly belonging to officials of Jharkhand Public Service Commission. Police Administration is looked after by the superintendent of the police (S.P.). He is also assisted by no. of police officers like Assistant Superintendents of Police, Deputy Superintendent of Police, Inspector of Police, etc.

District Highlights – 2011 Census

- Pashchimi Singhbhum ranks 8th in terms of population (15,02,338) and 1st in terms of area (7,224 sq.km.) in the state of Jharkhand.
- In terms of population per sq.km. Pashchimi Singhbhum is the 21st densely populated district in the state with 208 persons per sq.km as against the state's 414.
- Pashchimi Singhbhum ranks 1st in terms of sex-ratio (1005) against the state's 949.
- There are 31 uninhabited villages (out of 1,673 total villages) in the district of Pashchimi Singhbhum.
- Narsanda (under Chaibasa C.D. Block) is the most populated village (4,841) and Korpos (under Sonua C.D. Block) is the least populated village (5) in the district.
- The economy of the district mainly depends on cultivation or related work. More than 73% of the total workers are engaged in Primary sector.
- C.D. Block Bandgaon has the highest number of villages (216) in the district and C.D. Block Jhinkpani has the lowest number of villages (27).
- Kenjra (under Tonto C.D. Block) has the largest area (2,930.33 hectare) and Bhatarbhuin (under Goilkera C.D. Block) has the smallest area (3 hectare) among the villages in the district.
- 18.05 % and 58.63 % of Households of main source of drinking water are from uncovered- well and handpump respectively of the villages.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was

enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 alongwith a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing& Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing& Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their States/UTs. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the

existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is an important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract - District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes - District/C.D. Block/Town.
4. Village Primary Census Abstract - C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
